

The purpose of this paper is to ask Members to consider a proposal from the Isle of Wight Council's Strategic Manager Recreation, Leisure and Public Spaces for funding an additional Environment Officer post.

No. DETAIL

1) CONTEXT

- a) Although this has not been raised in discussions with Town and Parish Councils about possible responses to the budget cuts in Beach Cleaning and Grounds Maintenance, the Strategic Manager has raised it in his letter to all such Councils about those matters.
 - b) The Isle of Wight Council's decision is to cut the numbers of posts in the Environment Officer team from the current 7.5 to 3.5.
 - c) A matrix attached to the letter shows the range of services by the team that will be lost when that happens.
-

2) PROPOSAL

- a) The matrix also shows those services due to be lost that could be retained if Town and Parish Councils agree to fund an additional post to increase the team's establishment to 4.5.
 - b) The proposal is that this is funded by contributions of 40 pence per head of population for parishes with more than 5,000 people and 30 pence per head for those with fewer residents.
 - c) The cost to Ventnor Town Council, shown on the matrix with a population of 5,976 would be £2,390.40pa
-

3) RECOMMENDATION

Members are recommended to consider this request and determine whether the Town Council would, or would not, be willing to make that commitment.

OPTIONS FOR ENVIRONMENT OFFICER SERVICE

Service area	(85)	(86)	(87)
	Current role (7.5 fte)	Role with 3.5 fte	With aid of town and parish councils (4.5 fte)
