Sustainability and Bio Diversity Group

Ventnor Town Council Sustainability and Bio Diversity Group

Ventnor Town Council Sustainability and Bio Diversity Group are organising a series of Public Consultations to discuss ways the people of Ventnor can be a part of the solution to the Climate and Ecological Crisis that we face.

The 4 events will start with a short presentation, followed by facilitated table discussions on how residents of Ventnor would like to be active.

As a stepping stone to this, the Sustainability and Bio Diversity Group has compiled a list of websites with lots of ideas covering a broad range of initiatives happening all over the UK now. This list is not exhaustive or prescriptive, it's a start. The Working Group welcomes ideas that residents think would work. If there are ideas that would need funding, bring them along – as always, if we can demonstrate that there is a need, then we can look to obtain funding.
